Head sealer with SuperTrak System (B&R) for electromagnetic bag transport and compact design

- For promotional stand-up bags
- For creative top closure designs with an upright or folded head seam, with clip label closure or slider attachment
- For all dry, free-flowing and powdery products

Through creative design options, the head sealing machines offer real marketing flexibility for a high sales impact on the shelf. The requirements of operators, marketers and retail customers regarding cost and marketing efficiency are fully met.

Modular design for individual applications and bag top closures:

- Filling station for empty bags
- Simplex/Duplex post-sealing station
- Simplex/Duplex Folding station 180°
- 90° crossover for head
- Hot glue station
- Labelling station
- Clip station
- TinTie station
- Cord label dispenser
